

EVERGUARD® PVC Accessory

Description

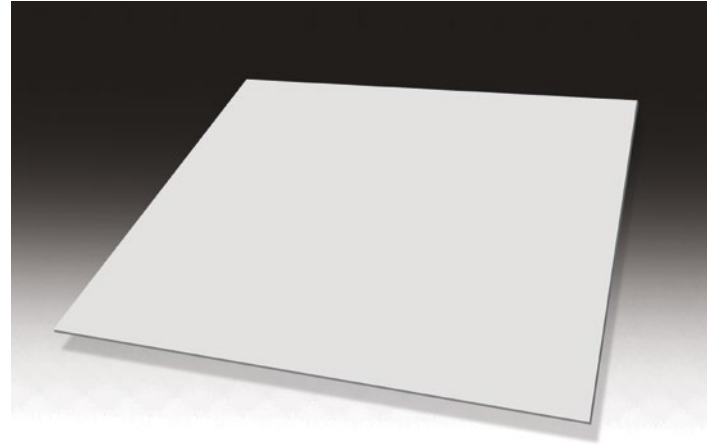

EverGuard® PVC Coated Metal Sheets are constructed with EverGuard® PVC membrane laminated to galvanized steel.

Application

EverGuard® PVC Coated Metal Sheets are PVC membrane laminated to 24-gauge galvanized steel and cuts and forms like standard sheet metal. EverGuard® PVC Coated Metal is used for metal gravel stops and drip edges, metal base and curb flashings, and sealant pans and scupper sleeves. EverGuard® PVC membrane can be welded directly to coated metal.

Product Information

EverGuard® Coated Metal Sheets are available in 4' x 10' (1.21 m x 3.05 m) sheets of 25 mil PVC laminated to 24-gauge galvanized steel.
