RUBEROID® ENERGYCAP™ GAF HWPlusGranuleFR Membrane

ITEM CODE: 375A

Description:

RUBEROID® EnergyCap™ HW Plus Granule FR membrane is a heavy-duty, premium, SBS-modified bitumen membrane that is manufactured to GAF specifications. Its core is a strong, heavyweight, non-woven polyester mat that meets ASTM Type II criteria.

Uses:

RUBEROID® EnergyCap™ HW Plus Granule FR membrane is suitable for new roofing and reroofing applications where long-term roof system performance is specified.

Advantages:

- Resilience — the heavyweight polyester mat core protects against splits and tears due to its pliability and elongation characteristics.
- Performance — specially formulated modified asphalt gives the membrane excellent performance.
- Reflectance — the membrane is available in highly reflective white.
- Product warranties and system guarantees are available. Contact your local sales representative for requirements, availability, and limitations. See warranties and guarantees on gaf.com for complete coverage and restrictions.

Storage and Handling:

To prevent damage, support rolls on end in an upright position and store in a clean, dry location, covering as necessary to protect from environmental damage. Monitor environmental conditions during storage, handling, and application.
